PRODUCTS & SERVICES

- **Custom Agents**
Automate recurring work for your entire team, using knowledge in Notion and connected tools.
- **Enterprise Search**
Search across all your apps, including Slack, Google Drive, and GitHub, to find answers in seconds.
- **AI Meeting Notes**
Automate meeting notes and follow-ups, using AI to capture conversations and turn notes into progress.

AI-GENERATED PAIN POINTS

- **Workflow Efficiency**
Many teams struggle with inefficient workflows, using multiple tools and apps to get work done, leading to wasted time and decreased productivity. Notion's platform helps to streamline workflows, automate busywork, and increase productivity.

• **Information Overload**

With the increasing amount of information and data that teams need to process, it can be difficult to find the right information at the right time. Notion's enterprise search feature helps to solve this problem, by allowing teams to search across all their apps and find answers in seconds.

• **Meeting Effectiveness**

Meetings can be a significant waste of time, especially when it comes to taking notes and following up on action items. Notion's AI meeting notes feature helps to solve this problem, by automating meeting notes and follow-ups, and turning notes into progress.
